

# Upload to Duet (Wifi) when slicing

See <https://www.duet3d.com/forum/thread.php?id=889>

Insert following code in "Additional terminal commands for post processing":

```
curl -F "file=@[output_filepath]" "http://duetwifi.home.alitecs.de/rr_upload?name=gcodes/[output_filename].gcode"
```

curl has to be installed!
